Madrid Dispatches Point Directly Toward War

MINISTER WOODFORD PREPARES TO LEAVE AT ONCE

London Confirms the Madrid Report and Dispatches From Other European News Centers Show That Matters Are At A Most Acute Stage--Orders Given To The United States Naval Forces.

LONDON, April 1. 12:00 m.—[Special]—A dispatch from Madrid says that the cabinet has refused all of McKinley's principal demands, and that Minister Woodford is preparing to leave the country.

Washington, April 1, 4 p. m.—[Special]—Reports sent from here earlier in the day touching the Spanish rejection of President McKinley's overtures, for a settlement of the Cuban difficulty are fully confirmed by later reports.

The statement that Minister Woodford is preparing to leave Madrid is credited. Indeed, he has been prepared for such a proceeding for some time past, and only awaited the emergency to carry out his plans.

The belief in official circles here is that Spain will yet yield a point.

OFFICIALLY CONFIRMED.

MADRID, April 1.—[Special.]—The statement is made on official authority that Spain has rejected all the American demands. Minister Woodford is preparing to depart for the United States.

WAR ORDERS ISSUED.

SAVANNAH, Ga., April 1.—[Special]—Army officers here have received war orders.

WASHINGTON IS READY.

WASHINGTON, April 1.—[Special]—The reply of Spain to the demands of the United States was placed in the president's hands this morning. While nothing official is given out it is stated that Spain does not accede to the American demands, nor does she reject them, but leaves them open for further negotiations. Minister Woodford's note is being considered at today's cabinet meeting, when it will be decided whether an ultimatum will be sent to Spain, which must be answered within twenty-four hours.

INDEPENDENCE WILL BE RECOGNIZED.

If not answered within that time it is said the president will suggest congress that the independence of Cuba be recognized, and the recognition will be enforced by a military display.

WAR IS INEVITABLE.

Washington, April 1.—[Special]—European diplomats have notified their governments that the situation has reached a most acute stage, and that war appears inevitable.

The foreign powers have resolved upon the policy of hands off.

Austria, France and Germany are diplomatically displaying of late sympathy with Spain, but there will be no interference.

The representative of one of the great European powers expressed the opinion yesterday that our latest proposal to Spain is of such a character that no self-respecting nation could accept it and live.

FRANK JAMES WANTS TO FIGHT

Wants to Raise a Company of Rough Riders and Patrol the Coast.

St. Louis, April 1.—Frank James, the ex-bandido, says that in even of war he will at once organize a company of cowboys and ask to be allowed to patrol the frontier to prevent invasion from Mexico.

He says that he could organize in a few days a company of range riders in the southwest and that every man would die with his boots on. He expressed himself as of the belief that the Spanish residents of Mexico would attempt to cross the Rio Grande.

"If the boys who fought with me in the last war are alive the Spanish wouldn't make a monthful," said James, "and we would drive them into the sea as fast as they could land. But there are a number of good fight-

ers on the range that I can get into my company."

HOW CONGRESS MAY PROCEED.

Intervention in Cuba Will Be the Means of Precipitating War.

Washington, April 1.—It seems to be the general impression here that the most probable action of congress is not a declaration of war, but an authorization of intervention in Cuba to stop the hostilities and suffering there, with use of the military and naval forces of the United States to make his intervention effective. It is barely possible even this might not lead to war at once. There are members of the cabinet who think Spain would not resist our intervention at the outset, but would appeal to the European nations, or attempt by some other means to avert the actual

necessity of going to war. The prevailing and perhaps the most rational opinion, however, is that intervention with force means speedy resistance on the part of Spain, and that is war. If Spain has spirit enough to stand out against our demands at this stage of the proceedings, she must have spirit enough to resist our actual interference with her domestic affairs.

If war comes it will probably come quickly. The best opinion here is that if the United States must go at the task of driving Spain from the western hemisphere it should be approached without subtlety or indirection inasmuch as armed intervention means war at best, nothing is to be saved by placing our action upon that basis, thus affording a possible excuse for delay or diplomatic expedients on the part of Spain. This is the prevailing view both in congressional and naval circles.

INTEREST AT THE WHITE HOUSE

Crowds Seek Information Up to a Late Hour Last Night.

Washington, April 1.—Spain's official reply to President McKinley's latest demand in the Cuban situation, was received in Washington last night. An anxious party, comprising most of the

Hon. Stewart L. Woodford, American Minister to Spain.

cabinet and several close friends of the administration, waited till late in the evening in expectancy of developments. About 10:30 o'clock the message began to come, in cipher, and the work of translation was begun at once.

Among those at the White House were Senator Hanna, Secretary Alger, Secretary Bliss, Assistant Secretary of State Day, who dined with the president; Assistant Secretary of State Adee, to whom was confided the translation of the message; Senator Spooner and Senator Aldrich.

The White House continued to be thronged with congressional leaders anxious to learn from the president what his course was to be. The general view conveyed by these leaders, after they had been with the president was that he expected to have definite replies from Spain in time to present the entire subject to congress by next Monday.

WAR FEELING RUNS HIGH

Attorney General Mylrea Found Intense Strain at Washington

Milwaukee, April 1.—There is an intense war feeling in Washington according to Attorney General Mylrea, who was in Milwaukee yesterday, returning from Washington, where he had been several weeks on law business. From what he saw and heard at the capital, he thinks war is inevitable and that it will be protracted. He is a strong man, Mr. Mylrea says, who at Washington can keep his self possession. In the eagerness for war news, everything else has been lost sight of, and senators or members of the house seen standing on the streets talking to friends are at once surrounded with excited crowds, looking for details of war news.

ACTIVITY AT HAVANA

Battleships Ready to Sail at a Moment's Notice, or Have Sailed

Havana, April 1.—[Special]—Preparations for trouble are being made here. The battleships Vizcaya and Almirante Oquendo have received orders to be in readiness to leave the harbor at a moment's notice. They have been preparing for departure all day.

New York, April 1.—[Special]—A dispatch from Havana indicates that the Spanish fleet will allow no information regarding the battleships there to be sent out. A message says: "Cruisers Vizcaya and Oquendo sail." Whether this meant they have sailed, or intend to, is not known.

ALL THE NEWS OF THE BADGER STATE

NEW BUILDINGS FOR INDUSTRIAL SCHOOL.

Treasury Statement for March Is Favorable—Woman Buried Alive—Odd Fellows' Insurance Benefits—Rose Sues For Libel—Hibernians' Convention Closed.

Madison, Wis., April 1.—The board of control yesterday afternoon considered the construction of new buildings at Waukesha to replace the shops recently burned. To erect the new buildings will be necessary to create an indebtedness of about \$30,000, and Governor Scofield is conferring with the members in regard to means for providing for this sum. It is likely the board will decide to erect three new buildings at once, one to be a power house, another for the laundry, and the third to contain the dining hall, officers' dormitory and bakery. With these buildings the manual training department will be put in the basement of the school building. Under this arrangement the school can be run until the next session of the legislature, when an appropriation can be secured.

ODD FELLOWS' INSURANCE.

Cases Pending Are Postponed to Await Supreme Court Decision.

Oshkosh, Wis., April 1.—In municipal court yesterday the actions of J. L. Fulton, assignee of the Wisconsin Odd Fellows' Mutual Life Insurance company, against about six former members of the company, who reside in this city and vicinity, were adjourned for trial to June 1. Suits are brought to recover assessments alleged to be still due to the defunct company. Before the date now set for the trial of these cases it is expected a decision will be handed down in the supreme court in the case of the company vs. E. E. Stevens, mayor of this city. Mr. Stevens was one of the heaviest of the alleged delinquents. He was defeated in the municipal and county courts, but an organization of ex-policy holders against whom similar claims are pending carried the fight to the supreme court as a test case.

HE SUES FOR LIBEL

Milwaukee's Democratic Candidate For Mayor Feels Aggrieved.

David S. Rose, democratic candidate for mayor has taken steps to sue George Brumder, publisher of The Germania, for damages on account of alleged libel. The summons and complaint were prepared yesterday afternoon by Hugh Ryan attorney for Mr. Rose and service will be made today.

Regarding the matter, Mr. Rose made the following statement: "The suit is the result of the attack upon me in the issue of The Germania of Monday last. It is there charged that the Onyx company was organized for the purpose of swindling and that I was the chief promoter of that company and benefited by its operations. Numerous charges reflecting on me are made therein and I propose to take the matter into the courts. The article contained a lot of charges reflecting upon me and the statements are slanderous and untrue."

On opening the coffin it was found that she had been buried while in a trance, as she must have come to after being interred, for she had partly turned over, and the right side was drawn up to the face and the fingers indicated having been bitten in the agony of finding herself interred alive. She had been buried thirteen years."

When Charles Quarles, president of the Milwaukee school board, returns in about two weeks from the southwest coast of Florida, whither he went in company with his wife and two youngest sons, early in March, he will bring with him the jaws of an immense hammerhead shark as a trophy of his fishing cruise in the Gulf of Mexico.

WILL BROOK NO DELAYS

Spain Must Come to the Scratch at Once

PRESIDENT M'KINLEY FOR THE RIGHT.

Will Not Allow the Matter to Be Postponed

SPANIARDS ARE WILLING TO STOP THE FIGHTING.

But They Want the Armistice to Last

Until May 4—President Will Send a Message Refusing to Agree to Such Terms—Critical Time Has Arrived and the "Haughty Dons" Must "Fish or Cut Bait"—Ready For War at Havana.

Washington, April 1.—[Special]—The official statement was given out at the close of the cabinet meeting that Spain will accept whatever assistance to feed the starving may be sent from the United States. The Spanish government will confer preparation for an honorable and stable peace on the autonomous parliament in Cuba, but as that body will not meet until May 4, Spain will not object to a suspension of hostilities if asked for by the insurgents.

President McKinley is now preparing a message to congress on the subject. The message will be presented this afternoon. It is said he will refuse to grant a delay until May 4.

Spain is Defiant

New York, April 1.—[Special]—A Madrid dispatch to "The Evening Post" at 1 p. m. says: "According to best information obtainable today, Spain has definitely resolved not to make any further concessions to the United States."

Flying Squadron's Orders.

Washington, April 1.—[Special]—It is rumored at the Navy department that Commodore Schley has been ordered to get the flying squadron ready for sea at once and to make arrangements to be able to sail at a moment's notice. In view of the fact that orders and news in the bureau of navigation have been suppressed by an official order, this rumor cannot be verified.

THE SITUATION IN BRIEF

Late Bulletins Concerning the Complications With Spain

Washington, April 1.—[Special]—The report was circulated here this morning that the Spanish legation is packing up preparatory to returning to Spain, but the Spanish minister says no such thing is contemplated.

European diplomats here have notified their governments that war seems inevitable.

The cabinet went into conference this morning, presumably to consider Spain's reply to the president's demands. Before the meeting began Assistant Secretary Day said the prospects of a peaceful settlement were decidedly better. Members of the strategic board and Assistant Secretary of the Navy Roosevelt were called into the cabinet room for the purpose, it is believed, of giving information regarding the strength and position of the warships.

Orders have been sent to Commander Schley, of the flying squadron, to prepare to sail at an hour's notice.

Senator Quay today introduced a resolution directing the foreign affairs committee to report resolutions by April 5, recognizing the independence of Cuba.

BELLIGERENT WAR SHIPS ABROAD

They Cannot Be Fitted Out in the Ports of Neutral Nations.

New York, April 1.—Frederick B. Condit, the eminent authority on international law, was asked what the status would be of the war vessels purchased in Europe should war with Spain be declared before they sailed. He said:

"A foreign government in such a case would be bound to prevent the fitting out of ships intended to take part in the war. The elementary principle of neutrality is that the neutral powers shall not aid either party, and to give its aid to the fitting out of ships intended to prey upon the commerce or to destroy the navy of a belligerent would manifestly be giving such aid and comfort to one of the parties."

"Of course if the ships are already bought and ready to sail there is no power to prevent their leaving the neutral port."

WAR IS NOT FAVORED BY JANESVILLE MEN

CIRCUMSTANCES DO NOT JUSTIFY BLOODSHED.

Majority Stand By the President and Trust to His Judgment—That No Fighting Will Occur Seems to Be the General Sentiment—Some Interviews.

Janesville men do not, as a rule, favor war with Spain under existing circumstances. They seem to feel that the president should have the support of the people and that he can be depended upon to do the best thing for all concerned. A number of interviews follow:

J. F. Sweeney—I think, as does General Bragg, that the fellows who are doing the most yelling would be the last ones to enlist.

Prof. D. D. Mayne—I do not believe we will have war. The congressmen are not representing the true sentiment of the people.

F. E. Fiedel—President McKinley knows what the feeling is and having the facts at hand will act accordingly. However, I think the appearances are warlike.

W. H. Appleby—I do not think we will have war. It is not necessary at present.

W. G. Wheeler—The president is all right. I do not think we will have war.

A. K. Cutts—I do not think Spain wants to fight. I think the Spaniards will surrender Cuba on the payment of an indemnity to be guaranteed by the United States.

O. A. Potter—The matter ought to be settled at once. There have been delays enough.

J. A. Fathers—I do not think we will have war. But if we do it will be a short brush, and will not last over three months.

Sheriff Acheson—I believe that President McKinley is using his best judgment. Unless the country is well prepared for war, we better not undertake it until we are prepared.

Mayor Thoroughgood—President McKinley's judgment is good. War is not necessary, and I do not think we will have one.

Dr. C. T. Peirce—I am in favor of doing something at once.

O. C. Russell—Congress ought to give the president time. He is the balance wheel, and should have his own way.

George G. Paris—America ought not to be talking fight all the time. This country has been on record as a peace maker too long for such action. We are getting better prepared for war every day, and if it becomes necessary to fight, Spain will get a whipping in short order.

Chief Hogan—I think matters can be adjusted satisfactorily to all if hot heads are left alone.

Dr. W. H. Judd—I think we will have war. It should have been decided a month ago.

T. S. Nolan—Neither side wants to fight. I see no necessity of going to war.

H. H. McKinney—It's just plain "Bill" now.

J. H. Lamphier—I think the government will let the matter drop but that will not satisfy the people.

David Conger—The Spaniards will fight. They are always fighting among themselves.

O. T. Wilcox—I do not think our congress is doing right. President McKinley is acting firmly in the matter.

E. C. Lloyd—There has been nothing in Cuba but no war. I think the United States should interfere.

Night Officer McGinley—If it is certain that the Spaniards blew up the Maine war should be declared.

Dr. J. W. St. John—We should buy the island in preference to going to war. The time has come when Spain must toe the mark.

DOWN IN NICARAGUA.

Janesville Man Reports His Impression of the Country.

E. B. Humphrey, a well known Janesville boy, who has of late months been with a party of American surveyors working on the proposed Nicaragua canal, writes home informing relatives that he and his party have been transferred from the Atlantic to the Pacific side of the country.

Nicaragua is a strip of land but 167 miles wide. Mr. Humphrey says they seldom meet a person there who can talk English, and as for the weather, it is continually raining. The chief

AIR BRAKES WORKED TOO WELL

Wreck Caused by the Breaking of the Coupling of the Engine

Freight train No. 74 on the Northwestern road, which left Madison Wednesday at noon for Janesville, was wrecked just this side of Rock's cut, about two miles south of Madison, and a half dozen cars went into the ditch. No one was hurt. The accident was due to the engine breaking

loose from the rest of the train, thus permitting the air to enter the brakes and stopping the train too suddenly. It was a long train with a rear engine attached.

What a Delavan Paper Hopes to Secure From Janesville

The Delavan Enterprise in speaking of the completion of the new long distance telephone line between this city and Delavan, says:

"Hitherto we had no direct communication with Janesville, and by reason of this strictly moral sheet has failed to print any of the devilment constantly occurring there. The new telephone will now enable us to keep track of the dog fights, fluctuations in the price of clam shells, and divorce trials along the shores of Rock river."

THEY WANT TO TELL

These Grateful Women Who Have Been Helped by Mrs. Pinkham.

Women who have suffered severely and been relieved of their ills by Mrs. Pinkham's advice and medicine are constantly urging publication of their statements for the benefit of other women. Here are two such letters:

Mrs. LIZZIE BEVERLY, 258 Merrimac St., Lowell, Mass., writes:

"It affords me great pleasure to tell all suffering women of the benefit I have received from taking Lydia E. Pinkham's Vegetable Compound. I can hardly find words to express my gratitude for what she has done for me. My trouble was ulceration of the womb. I was under the doctor's care. Upon examination he found fifteen very large ulcers, but he failed to do me good. I took several bottles of Lydia E. Pinkham's Vegetable Compound, also used the Sanative Wash, and am cured. Mrs. Pinkham's medicine saved my life, and I would recommend it to all suffering women."

Mrs. AMOS TROMBLEY, Ellenburgh Ctr., N. Y., writes:

"I took cold at the time my baby was born, causing me to have milk legs, and was sick in bed for eight weeks. Doctors did me no good. I surely thought I would die. I was all so troubled with falling of the womb. I could not eat, had faint spells as often as ten times a day. One day a lady came to see me and told me of the benefit she had derived from taking Lydia E. Pinkham's medicine, and advised me to try it. I did so, and had taken only half a bottle before I was able to sit in a chair. After taking three bottles I could do my own work. I am now in perfect health."

IS CLOSE TO THE PRESIDENT.

General Opinion That He Speaks for the Administration—Johnson of Indiana Pleads for Peace—Senate Will Wait for Cuban Consular Correspondence.

Washington, April 1.—Having suppressed an outbreak in behalf of Cuban independence, and agreed to postpone until Monday any attempt to anticipate the action of the executive, it was supposed by the majority in the house that Thursday's session would be devoted to a strict consideration of the naval appropriation bill, but Mr. Lewis of Washington precipitated the most vigorous and significant Cuban debate the house has yet enjoyed. His remarks called out from Mr. Johnson of Indiana a scathing rebuke of the "unwise zeal of congress," which, he said, was hurrying the country into a wholly unnecessary war.

He deplored, he said, the cry for war; for himself, he desired peace, and was willing to go to any length, short of dishonor, to secure it. The president, he believed, if permitted to act without pressure, could secure it by the arts of diplomacy, and secure it to the satisfaction of the country.

Mr. Lewis and Mr. Bailey replied to this speech.

Gen. Grosvenor's contribution to the debate was the most significant declaration that has yet been made. He has very close relations with the president. He denounced as the tale told by an idiot, full of sound and fury, signifying nothing, the report that the administration had ever contemplated or proposed that Cuba should be compelled to purchase her independence. In their own way, by their own ministry of organization, and speedily, the republicans would proceed in the matter with the result that Cuba should be free and the settlement would not be based upon a money consideration, or that made a condition. He assured the house and the country that the denouement would show that they had not been betrayed nor deceived by the administration. Loud applause greeted this declaration.

Brief speeches were made by other members and the house adjourned after having passed upon about a dozen pages of the bill, leaving about as many more, including the provision for the increase of the navy and the purchase of armor plate, yet to be considered.

Recommended the Resolution.

Washington, April 1.—The Cuban question came up during the morning hour in the senate Thursday in the shape of a motion by Mr. Frye of Maine to recommit to the committee on foreign relations the resolutions which he had reported from it Wednesday calling on the president for the consular correspondence from Cuba. The committee resolution was recommitment, but a resolution of similar import was offered by Mr. Chandler and laid on the table, so as to be within his power whenever he desires to call it up for discussion or action.

Wheeler Frames Relief Bill.

Washington, April 1.—Representative Wheeler of Alabama introduced a bill Thursday appropriating \$500,000 to purchase provisions for the use of the Cuban noncombatants and directing the president to cause them to be conveyed at once to the starving people, and to use as much of the military and naval forces as necessary to attain this purpose. It also directs the president to notify the Spanish government that this proceeding is an act of humanity and not intended as an act of war.

Votes to Wait Until Monday.

Washington, April 1.—The house committee on foreign affairs adjourned at noon Thursday without action. There was a general exchange of views, and it was decided that before taking aggressive action it was only fair to the administration to give it the few days asked to see if the demands the president has made will be agreed to by Spain.

Mine Headquarters Moved.

Indianapolis, Ind., April 1.—The headquarters of the United Mine Workers were moved from Columbia, O., to this city Thursday. President Ratchford says the miners of the country were never in better condition than at this time. The only complaint is that on account of the clogged state of the market a good many miners are not regularly employed. Notice has been received that the price of Indiana block coal, nearly all of which goes to Chicago, has been increased 25 cents a ton at the mines.

Both Ports to Be Open.

London, April 1.—In the house of commons the parliamentary secretary of the foreign office, Mr. Curzon, said Count Muraviev, the Russian minister of foreign affairs, on March 16 authorized the British ambassador at St. Petersburg, Sir N. R. O'Connor, to inform her majesty's government that in the event of China consenting to lease Port Arthur and Ta-Lien-Wan to Russia both ports would be open to foreign trade on the same basis as the other Chinese ports.

GENERAL STRIKE LIKELY.

Coal Miners Want Increased Wages and the Eight-Hour Day.

Pittsburg, Pa., April 1.—All indications point to a general strike before the end of the week of the miners in the eastern bituminous districts, comprising West Virginia, Maryland, and the Hocking Valley. A strike was ordered at the recent Pittsburgh convention of miners, since which time all efforts to bring about an amicable settlement have failed. The miners demand an eight hour day and an advance in wages corresponding to that agreed upon at the Chicago conference of miners and operators, in which agreement the miners of the districts named were not included. A strike will call out nearly 50,000 men, and will affect the entire district shipping to the seaboard, as well as a few of the Ohio districts.

Coal for the Warships.

Louisville, Ky., April 1.—The government coal fleet that tied up just below the city on Friday bound for the gulf has been ordered by the secretary of the navy to proceed at once, and at all hazards. The coal is for the use of the United States navy at Key West. The "hurry" order was obeyed with such alacrity that part of the crew got left here. The fleet carried nearly 2,000,000 bushels of coal, which was purchased at Pittsburg. The fleet had tied up waiting for the high water to subside. Enough coal was carried by the fleet to supply 200 warships for several days.

To Make Alaska Surveys.

San Francisco, April 1.—The steamer Valencia, which will sail from here next Saturday for the Copper River, will carry three government expeditions. One expedition is going north to survey the mouth of Copper River, another is going to Cook's Inlet, and the third is to survey an all-American route via the Valdes Pass to the headwaters of Copper River.

A telegram from Captain Lord of the Valencia says that the Valdes Pass is now in excellent condition and the gold hunters are coming and going over it continually.

Brig-Gen. Wheeler Resigns.

Chicago, April 1.—Brig. Gen. Wheeler has resigned his command of the First brigade, Illinois National guard, upon the request of Gov. Tanner. No explanation accompanied Gov. Tanner's communication. It is generally believed, however, the ostensible excuse will be presented that Gen. Wheeler allowed the Seventh regiment to participate in the St. Patrick's day parade at Chicago.

Hitch in the Chinese Loan.

London, April 1.—The Globe says it understands there is a hitch in connection with the Chinese loan, owing to the stock exchange committee refusing to quotation it until the emperor of China ratifies it. France and Russia, the Globe adds, are straining to prevent the ratification, and it is possible the matter may yet require the intervention of Germany and Great Britain.

Methodists Laud McKinley.

New York, April 1.—At the session of the New York conference of the Methodist Episcopal church a resolution commending the action of President McKinley during the present crisis was adopted and ordered to be telegraphed to the chief executive.

SOME COPPERHEAD WAILS.

The yellow papers that howl because "the money power" will not "allow a war" have not yet found space to publish the following dispatch from New York:

New York, March 28-Such members of the National Guard as are employed in the Chemical National Bank can answer a call to active service, in case it comes, without worrying over their positions and salaries while away. Five of the bank's employees are members of the militia, two of the 22nd Regiment, one in the 15th of the New York State Guard, another in the Brooklyn Signal Corps, and the fifth in the Gatling Gun Company of Orange, N. J.

Cashier Halpin announced today that in case these men were called on for active duty the bank would hold their positions for them until their return, and would continue their full salaries in their absence. Cashier Halpin is himself a retired member of the militia, having been forced by press of work when he became cashier of the bank to resign.

The Chicago Chronicle has been particularly bitter in its denunciation of Senator Hanna and all other public men who have made money, as well as banks and brokers, charging them with loving the dollars more than they love the flag. Yet the Chronicle has not yet offered its employees the terms made by the New York bank. Nor will it do so. The Chronicle is so narrow a party sheet that it would join a foreign government in fighting the stars and stripes if the president at the time, happened to be a republican. There are very few of these copperhead papers in the country, however, for which fact the people should be truly thankful.

REBUKES A "YELLOW PAPER."

Ex-President Cleveland rebuked the New York Journal, the yellowest of the yellow papers, most effectively the other day. The editor of The Journal wrote Mr. Cleveland as follows:

"New York, February 27, 1898.-To Grover Cleveland, Princeton, N. J.: Levi P. Morton General Miles, Rear Admiral Selfridge, William O. Whitney, O. H. P. Belmont, George Gould, C. M. Depew, General O. O. Howard, the governors of fifteen states, the mayors of fifty-two cities and a large number of other citizens in public and private life have accepted membership on a committee to erect a national monument by popular subscription to the men who went down with the Maine.

"May we add your name to the list of national committeemen? The position will make no demand on your time.

"W. R. HEARST, New York Journal."

Mr. Cleveland's reply is appended: "Princeton, N. J., February 28, 1898.-To W. R. Hearst, New York Journal, New York: I decline to allow my sorrow for those who died on the Maine to be perverted to an advertising scheme for the New York Journal.

"GROVER CLEVELAND."

Mr. Cleveland appears to realize that the Journal is patriotic for profit only and his stand in openly denouncing the scheme of the man who telegraphed his correspondent "don't the truth, send us something that will sell the paper," is to be commended.

NEED ABLE SUPERVISOR

In no branch of the city business are good business men more needed than as the representatives of the various wards in the county board of supervisors. At the next meeting of the board some action must be taken with reference to providing a new jail. This question is an important one to the taxpayers, and good men should be elected to represent the city in this and other important business. W. W. Porter, C. D. Child, J. L. Bear, W. H. H. Macdon, and W. G. Brandt are well known citizens and the people have full confidence in them. All five of these men should be elected as they will guard the city's interests

jealously, and vote for just men and measures only.

Fourth ward voters should elect W. G. Palmer alderman. Mr. Palmer is well known business man, and a good citizen. He has lived in Janesville and conducted a drug store for many years. His opponent is a comparative stranger and is engaged in the saloon business on South River street.

Justice Richardson is one of the rising members of the Rock county bar. He is possessed of natural judicial tendencies, and has made a splendid justice. Men of his ability should be retained in the public service. Recognize his worth and valuable services with your ballot.

City Treasurer Fathers has always been a steadfast republican, personally he is a splendid citizen, and officially he is thoroughly reliable. To vote for him to vote for a model citizen and city officer. His majority should be larger than ever this spring.

Street Commissioner Palmer is a good official, although he has been compelled to work under a bad system. This system is to be changed soon, and then Mr. Palmer will have a chance to do something. He deserves a re-election.

Every republican in the city should make it a point to vote next Tuesday.

LOST-A small brown spotted fox terrier. Finder please return to Alexander Helm, 124 Chatham.

LITIGATION OVER ONE ROD OF LAND

REVIVAL OF AN OLD SUIT IN THE JANESVILLE COURTS

It Has Been Heard In Many Phases For Fifteen Years—Costs Have Already Exceeded the Value of the Property—Town of Fulton Is the Complainant.

A law suit that has been hanging fire in the courts of Wisconsin for the past fifteen years, was brought to life again this morning in Justice M. P. Richardson's court, in the action entitled the Town of Fulton vs. H. S. Pomeroy. The trouble at issue is over a strip of land that involves a half acre all told. The commencement of the action in Justice Richardson's court this morning means nothing more than another trip to the supreme court.

Parties Tor the Litigation.

H. S. Pomeroy, the defendant in the present action, is a well known and highly respected resident of the town of Fulton. A forty-acre strip of land owned by him was alleged by the Town of Fulton to encroach on one of the public highways a distance of a rod. This charge Mr. Pomeroy stoutly denied, whereupon the town brought action for ejectment in 1883, making him defendant.

The case was fought in the municipal and circuit courts of Rock county, and was then taken to the supreme court, where it was thrown out on the finding of some technical error in March, 1889. An action was then commenced by Mr. Pomeroy against the town board of Fulton, which action was dismissed. Mrs. Katherine Heddes, who owns land on the opposite side of the road to the disputed Pomeroy land, was then accused by Pomeroy as owning land that encroached into the street. This matter found its way through the courts and Mrs. Heddes was awarded the suit, the court finding that her line fence, according to the survey as was correct.

The Town Steps In

The Town of Fulton which had been watching this suit with special interest, then lost no time in making Mr. Pomeroy a defendant again, which action was commenced this morning. The land in question is but a rod wide, running along a forty acre piece of land in section eight of the town of Fulton. The costs in the case have already amounted to more than the value of the land.

Goes to a Jury.

When the case was called this morning under Sheriff Wallace Ochohrane drew the following jury: John Comstock, H. W. Noyes, Robert L. Horn, Joseph L. Bear, John Spoon, and R. B. McCubbin.

John Olin, of Madison, attorney for the defendant, was not present this morning, and the case was adjourned until April 15. Fethers, Jeffrie, Fifield & Moust will represent the plaintiff.

BEFOULING THE RIVER

Scavengers Dumping Filth Into the Stream to Be Prosecuted

Complaint was made to City Health Officer James Gibson today of persons who have been detected dumping filth of the vilest nature in the river from the Jackson street bridge. The act is in direct violation of the city laws, and an extra effort will be made to bring the guilty ones before the courts.

Scavengers who reside in the city are suspected of committing this offense regardless of the health of the general public, and the authorities have a pretty good idea of the identity of the guilty ones.

DENVER PLEADED GUILTY

He Goes to Jail For Ninety Days In Default of a Fine.

In the municipal court this morning Wilke Denver pleaded guilty to the charge of adultery and was sentenced to pay a fine of \$200 or to be committed to the county jail for a term not to exceed ninety days. In default of the cash he went to jail.

In the case of the State of Wisconsin vs. Mrs. Mattie Reans, which involves the same action, a hearing was adjourned till April 30, the defendant providing bail in the sum of \$300.

CASE DRAGS ALONG SLOWLY

Suit of Ramey for Nursing His Mother-in-Law Still On.

The case of Charles A. Ramey vs. Eva J. Swinton et al., was adjourned in Judge Sale's court yesterday afternoon until next Friday at 10 o'clock. The greater part of the afternoon was occupied by the taking of testimony on both sides. The evidence showed that Mrs. Kirkpatrick suffered from the grip having had five different attacks of vomiting and diarrhoea, and was an exceeding great care.

Two days more will probably finish the case in the county court.

IN THE INTEREST OF TEMPERANCE

CAMPAIGN TO BE INAUGURATED AT AN EARLY DAY.

Noted Prohibition Orator to Begin a Series of Lectures Shortly—Church People Alarmed at the Increase in Drinking of Late—Social Tippling.

A union meeting of five evangelical churches will be held next Wednesday evening, in the Court Street M. E. church in the interest of temperance. Lou J. Beauchamp, of Hamilton, Ohio, who was recently in it here to lecture under the auspices of the local lodge of Good Templars, has notified the lodge of his acceptance. Five lectures will be delivered in this city, the first to be given on Wednesday evening next.

Mr. Beauchamp as a temperance lecturer is considered one of the most powerful men of today.

Citizens generally and more especially church members have had their interest in the cause of temperance greatly aroused of late. The treading and saloon elements have been usually aggressive, and drunkenness, especially among the young men of the city, has been apparently on the increase. The attention of the clergy, too, has been called to the increase in social tippling. It has become fashionable at many homes to serve wine and liquor to guests at social functions and it is not uncommon for a casual visitor at many homes to be invited to the sideboard as a matter of ordinary civility. This custom is greatly repudiated and strenuous efforts will be made to convince those who follow it of the pernicious results that are sure to ensue.

The local clergy are of the opinion that the city is on the eve of a great temperance awakening that will be felt in every grade of society.

FARMER BADLY HURT

D. Q. Stark Receives Serious Injuries While At Work In a Field This Morning.

Shopleer Wis., April 1.—[Special]—D. Q. Stark, a well known farmer, of this town, met with a serious accident this morning. While pulling stumps his team became fractious, and he was thrown to the ground and dragged some distance. His left leg was fractured above the knee, and it is thought that his right leg is also broken. Dr. Gibson, of Janesville, was summoned, and will attend to the injured man as soon as possible.

WAR RAGES IN CHINATOWN

Two Celestial Laundrymen Have a Fierce Competition in Prices.

When Wah Kee, the Chinaman, opened up his laundry on West Milwaukee street and commenced cutting prices a few days ago he did not figure on the indignation that he would stir in the ranks of his brother Celestials who reside a block farther west. Sam Sing announced today that he intends to have a finger in the pie from now on and that he will meet his copper colored brothers at any stage of the game.

No Chinese laundry will ever get me to cutting prices," said a local laundryman this morning, "for I don't believe it will add much profit to their business in the end."

MURDERED HER NEW BORN INFANT

SHOCKING CASE OF INFANTICIDE AT BELOIT.

Child Thrown Into a Vault With Slacked Lime—Its Cries Heard By Neighbors—Arrest of the Supposed Parents, Who Are Held for a Further Hearing.

Beloit, Wis., April 1.—[Special]—The most shocking crime ever heard of in this city came to light yesterday afternoon in the discovery of a fully developed infant in a privy vault, on the premises occupied by Mrs. Gunderson and two daughters, Helen and Julia, at 818 Central avenue. Early yesterday morning a neighbor, Mrs. Swanson, thought she heard the cries of an infant in the closet, and spoke to one of the Misses Gunderson about it. Miss Gunderson spoke in a careless manner of the affair, and said that the noise was probably made by a cat.

Later Mrs. Swanson thought she heard the cries again, and then made up her mind to send word to the police, and early in the afternoon Marshal Appleby and Officer Scheibel visited the Gunderson place, and on tearing up the floor of the out house found a baby that had been partially covered with slack lime.

They at once reported the case to Justice Booth, and a coroner's jury visited the scene. The jury were Geo. Gilman, James Divide, Elmer House, J. W. Merrill, Allen McCall, and Lee Ouse. Last night the police found out that the child belonged to Miss Helen Gunderson, and Charles Gibson has been arrested as being the father. He is under \$500 bonds.

FINAL DECISION IS REACHED

Minister Woodford to Consult the Authorities at Washington—Dispatch from the Capital Brings the News That War Is Considered Inevitable.

London, April 1.—The Daily Mail has issued a special edition containing the following dispatch from its Madrid correspondent:

"Madrid, March 31, 11 p. m.—At today's conference Prime Minister Sagasta read to United States Minister Woodford a written note of the resolutions adopted by the government in reply to President McKinley's demands.

"These demands are rejected, the feeling being, as I learn, that they are inconsistent with the dignity and honor of any nation.

"Minister Woodford declared that he could not make an immediate answer as he must consult his government. He asked permission to translate the note in English there and then, so that Senor Moret, minister of the colonies, who knows English, could revise and approve the translation.

"This was done. The only thing General Woodford said was to express his personal wishes for conciliation and peace.

"The Spanish note answering the demands was telegraphed to the powers, together with a copy of the American demands.

"I am assured that France and Russia have asked Spain to formulate the utmost limits of the concessions that she could make, the intention now of the powers being evidently to mediate the dispute.

"Admiral Bermejo, minister of marine, has received hundreds of petitions from Spanish and foreign shipowners asking for letters patent to fit out privateers to act against the Americans.

"There is intense popular excitement. The Correspondencia de Espana says that peace or war is hanging on a thread. The utterances of American opinion leave little room for hopes of peace, but the problem will have an immediate solution. All the papers express similar opinions. The situation generally is considered most grave.

"The Madrid correspondent of the Central News sends a brief dispatch confirming the statement published by the Daily Mail. Senor Sagasta communicated to Minister Woodford the resolutions of the government regarding the American propositions. Some of these were declared to be inadmissible, and General Woodford must consult the Washington government before taking further steps.

WAR IS INEVITABLE.

Spain Declines to Accede to President McKinley's Proposals.

Chicago, April 1.—The Tribune publishes the following dispatch from its correspondent at Washington:

War seems inevitable. Spain has declined to accede to President McKinley's proposal. There is no direct refusal, but an evasive answer, which is almost worse. The Spanish minister admits the gravity of the situation, and the legation is in a turmoil, apparently caused by preparations for departure.

The full text of the reply of Minister Woodford was received in cipher at the white house and translated sheet by sheet by state department officials. It was received by President McKinley, who had around him his trusted advisers, including Senator Mark Hanna of Ohio, Senator Aldrich of Rhode Island, Senator Allison of Iowa, Senator Spooner of Wisconsin, and Assistant Secretary Day.

It was admitted when the conference broke up long after midnight that

in advising Spanish acceptance, with this supposition and follow the time. All the editorials are based on the fact that the Spanish government must perform a Cuban independence demand for an armistice, but it is universally conceded that other morning papers do not go so far.

The American dispatches to the United States government a delay of twenty-four hours for a reply, which has been asked and obtained from the United States government.

Spain must reply today. The New York correspondent of the Daily Telegraph, after asserting that the United States government has demanded Cuban independence, adds: "Spain has asked and obtained from the United States government a delay of twenty-four hours for a reply, which has been asked and obtained from the United States government."

let it be war by all means. war should be a last resort. The pope may solve the difficulty if we but wait a little longer by commanding Spain, a Catholic country, whose children are the most loyal to the church on the globe today, to grant freedom and independence to Cuba. McKinley is right in the course of temperance and moderation which he has pursued ever since this talk of war began. I have the greatest confidence in our president and feel that he will act neither the coward nor the foolhardy braggart in this matter."

Sagasta Plays Fast and Loose.

London, April 1.—Private dispatches from Spain indicate clearly that it is the deliberate intention of the government to delay and delay and delay in the hope that the United States will begin hostilities and give her an excuse for appealing to Europe. Sagasta's plan is to wear out the patience of the American people and compel McKinley or congress to take the initiative. No matter what may be telegraphed from Madrid or Washington, enough has been revealed in letters received today from Spain to show that Sagasta has not the slightest intention of consenting to American intervention.

SEPTICIDE

"While in the army with the 54th. ind. Vols. sores came on my leg from the knee down, and much of the time since that I have been able to walk only with crutches. I have tried almost every remedy which friends suggested, but never struck the right remedy until about three weeks ago, when by the advice of our druggists, Goddard & Watson, I commenced the use of "SEPTICIDE." I took it internally and kept the sores wet with it four or five times a day. I am now happy to say, that I am entirely cured, and my leg is as sound as ever."

NOT KNOWN AT WASHINGTON.

Officials of the Japanese Legation Are Inclined to Doubt the Report—Apparently Little Trust Is Placed in Great Britain.

London, April 1.—It is reported here that Japan has asked the United States to join Great Britain in supporting Japan's refusal to withdraw from Wei-Hai-Wei after the payment of the Chinese war indemnity, in view of the possibility of Russia seizing that port.

DOUBTED AT WASHINGTON.

Japanese Legation Has Received No Confirmation of the News.

Washington, April 1.—At the Japanese legation here it is stated that no advices have been received on the line of the London rumor. The rumor is not credited at the legation.

The only communication received here has been the recent official announcement by Russia regarding her occupation of Port Arthur, and Japanese mail advices show that it was known and discounted in Japan some weeks ago and caused no excitement.

Japan, it is believed here, is more concerned about the payment of the indemnity than any territorial occupation of Wei-Hai-Wei, needing the funds for her largely increasing expenditures in addition to her naval strength.

California Navy Yard Damaged.

Vallejo, Cal., April 1.—Work in the navy yard has been shut down and the 1,700 employees are idle. A conservative estimate of the damage done by the earthquake shock Wednesday night is \$150,000. Only two buildings of the Mare Island navy yard escaped damage—the administration building and the ordnance store house and workshops. Commodore Hichborn, chief of the bureau of construction and repairs, reports the loss sustained will result in a month's setback for the work in hand.

Iowa Legislative Affairs.

Des Moines, Iowa, April 1.—The senate and house are in a deadlock. It prevented adjournment at noon Thursday as arranged. The deadlock was over the omnibus appropriation bill. This provides for the general expenses of the state government. The committee had recommended a reduction in some of the smaller salaries, and the senate refused to adopt the report. The bill was recommitted. The house passed the senate bill fixing the ensuing biennial receipts of the state at \$3,100,000.

Will Loan Strikers \$10,000.

New Bedford, Mass., April 1.—Matthew Hart, the weavers' secretary, returned Thursday from Fall River bringing word that the Fall River weavers' union is willing to loan the New Bedford operatives \$10,000 with which to carry on the strike. The Fall River weavers, it is understood here, have a large treasury, and the loss of the sum which they propose to loan would not seriously cripple them. The New Bedford weavers' union will accept the offer.

Zola Not to Go to Prison.

Paris, April 1.—The court of appeals, in the case of the appeal of M. Emile Zola against the judgment of the Paris assizes court, condemning him to twelve months' imprisonment and to pay a fine of 3,000 francs, has decided to sustain the finding of the lower court, but has also decided that M. Zola shall not undergo any punishment. In other words, the verdict and sentence are affirmed, but they are not to be put into effect.

Has Confidence in McKinley.

Lansing, Mich., April 2.—Both branches of the legislature Thursday passed a concurrent resolution expressing confidence in the Cuban policy of President McKinley as calm, prudent and patriotic, and congratulating congress upon its unanimity and courageous action in passing the emergency war measure.

St. John Is Now a Populist.

Topeka, Kan., April 1.—John P. St. John, the prohibition nominee for president in 1884, has renounced the cold water party and joined the populists. He will be the silver nominee for congress in the second district, and will have the support of the democrats, populists and free silver republicans.

Favor Lay Representation.

Terre Haute, Ind., April 1.—At Thursday's session of the Lexington conference, colored division of the Methodist church, the conference voted unanimously in favor of lay representation and 73 to 1 against enlarging the general conference.

State of Austria's Finances.

Vienna, April 1.—The minister of finance Thursday submitted the annual budget to the lower house of the Austrian diet. The estimated revenue is 722,271,980 florins, and the expenditures are estimated at 717,946,604 florins.

ATTACK ON GOV. PINGREE.

Senator Forsyth Objects to the Executive's Tax Propaganda.

Lansing, Mich., April 1.—Senator Forsyth made an attack on Gov. Pingree in a speech delivered Thursday. He declared that the executive had been tricking the farmers, and if his tax bill were passed without supplementary legislation the farmers and shippers would be forced to pay the increase in the increased freight rates. Senator Forsyth charged that because of Gov. Pingree's unfair teachings during the last two years legislators must either vote blind on whatever bill the executive submitted or be adjudged corruptionists by the public. He offered a resolution asking the governor to submit a message providing for a commission to equalize freight rates, but the senate sent it to a committee.

In the house the Pingree tax bill was amended so as to provide for a provisional board of assessors to consist of state officers and to serve until next January. This board is to be succeeded by a permanent board consisting of the auditor-general and two members to be elected in November. This board is to assess the property of railroad, express, telegraph and telephone companies.

Carpenter's Strike Now a Fact.

Chicago, April 1.—The strike of the carpenters is now a settled thing. At the meeting held last night the resolutions declaring for a strike next Monday morning were ratified with enthusiasm. The men say they have received no encouragement from the bosses and that they must take matters in their own hands. If the strike is general, as it promises to be, 6,000 men will leave work Monday morning and building operations in Chicago will cease for a time. The men are firmly determined to make a hard fight and say that they will fight to the end.

ELECTOIN NOTICE.

Office of County Clerk

March 29, 1898.

To the electors of Rock county (or city): Notice is hereby given that a "judicial and municipal" election is to be held in the several towns, wards and election precincts in the county of Rock on the fifth day of April 1898, at which the officers named below are to be chosen. The names of the candidates for each office to be voted for, whose nominations have been certified to this office, are given opposite the title of the office and under the appropriate party or other designation, each in its proper column, and the questions submitted to a vote are stated below:

Information to Voters.

The following instructions are given for the information and guidance of voters: A voter, upon entering the polling place, and giving his name and residence, will receive a ballot from the ballot clerk, which must have

indorsed thereon the names or initials of both ballot clerks, and no other can be used. Upon receiving his ballot, the voter must retire, alone, to a booth or compartment and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for.

The voter should make a cross mark, X, after the name of each candidate he desires to vote for. If he wishes to vote for a person for a certain office, whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in an other manner. If the ballot be spoiled, it must be returned to the ballot clerk, who must issue another in its stead, but not more than three in all to any one voter. Five minutes time is allowed in booth to mark ballot. Unofficial ballots or memorandum to

the voter in marking his ballot, can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter. After it is marked, it should be folded so that the inside cannot be seen, but so that the printed indorsements and signatures of the ballot clerks on outside may be seen. Then the voter should pass out of the booth, give his name to the inspector in charge of the ballot box, and pass out of the voting place. A voter who declares to the presiding officer that he is unable to read, or that by reason of physical disability he is unable to mark his ballot, can have assistance of one or two election officers in marking the same, to be chosen by the voter. The presiding officer may administer an oath, in his discretion, as to such person's disability. The party designations and candidates for the different offices are as follows:
